## WHAT WE DO

## SERVICES OFFERED

## MECHANICAL ENGINEERING

- Heating, Ventilation and Air-conditioning
- Sprinkler Installations
- Lifts and Escalators
- Fire protection systems (computer rooms, archives, etc.)
- Kitchen extract systems
- Compressed air installations
- Boilers & Ancillary Equipment
- Cold and Freezer Rooms Refrigeration
- Smoke control and fire detection systems
- Swimming pool filtration and heating installations
- Medical gas installations
- Dust extract plants
- Laundry Systems
- Laboratory ventilation & air conditioning
- Kitchen Equipment Systems
- Pneumatic Mailing Systems
- Reverse Osmosis Systems
- Autoclaves
- Mortuary Tables
- Mining Air conditioning
- Hydrobath Systems
- Irrigation systems designs
- Borehole water systems design
- Rain water harvesting systems design

## ELECTRICAL ENGINEERING

- Full electrical power and lighting reticulation
- Fire smoke detection system
- Telephone and data reticulation
- PABX systems (Voice & Data Structured Cabling Systems)
- Access Control/Security Systems
- Public Address and Voice Evacuation Systems
- Power Factor Correction
- Building Management Systems
- UPS systems
- Data Network System Installation
- Lightning Protection
- Earthing Installations
- Emergency Standby Generator Plants

## FIRE ENGINEERING

- Rational Fire Designs
- Automatic Sprinkler Fire Protection
- Gas Fire Extinguisher Installation
- Emergency evacuation communication system
- Fire Pumps and Tanks installations
- Fire Hose reel & Hydrants Reticulation
- Smoke Management Designs
- Building evacuation and escape route analysis
- Firemans telephone systems
- Negotiations with Fire Authorities
- Building Regulation advice and interpretation (SANS 10400, NFPA approved document B and other British codes)
- Plan reviews
- Statutory Signage
- Survey and measurement of Architectural plans and sites where applicable.
- Preparation of budget estimates.
- Prepare Bill of Quantities where applicable
- Gas Suppression Systems Design
- Foam systems design
- Mist Systems designs

## STRUCTURAL ENGINEERING

- Reinforced concrete
- Structural steel
- Structural timber
- Reinforced and plain structural masonry
- Specialised foundations

- Rammed earth construction
- Structural surveys
- Design of water retaining structures
- Structural rehabilitation
- Expert witness

## SERVICES OFFERED

### CONTINUED

#### CIVIL ENGINEERING

- Township Development
- Dam design
- Pump station design
- Bulk water pipeline & conveyance
- Water treatment plant
- Storm water management design
- Bulk sewer design
- Sewer pump station
- Sewer treatment plant design
- Roads
- Building Services
- Bulk Earthworks

- Engineering services for residential development and certification
- Construction supervision
- Strategic & conditioning asset management
- Technical support services in community development projects
- Labour Intensive Construction technical services
- Water resources planning through to implementation stage
- Hydraulics and hydrology studies

#### FACILITIES MANAGEMENT

- Maintenance planning and management
- Lifecycle costing and management
- Service level agreements
- Expense management
- Contractor management

- Utilities management
- Tenants installations
- Building alterations and refurbishments
- Technical building inspections
- Occupational Health and Safety management
